

# Plastics Mixing Tools & Accessories

## Handy Mixing Aids

These handy throw-away items are useful for mixing and pouring plasters, polyesters, epoxies, urethanes and adhesives.

### Throw-away Plastic Gloves – 100 per box

Size	Catalog Number
Small	990-G02S
Medium	990-G02M
Large	990-G02L
Ex. Large	990-G02X

### Paper Mixing Cups

Size	Quantity	Catalog Number
Pint	50	990-C03P
Quart	25	990-C03Q

### Plastic Mixing Cups

Size	Quantity	Catalog Number
Pint	500	990-C04016
Quart	500	990-C04032
2 Quarts	200	990-C04064
Gallon	100	990-C04128
5-1/4 Quarts	100	990-C04168

### Wood Mixing Sticks – 500 per box

Size	Catalog Number
6" Long	990-M02

### Paper Mixing Buckets

Size	Catalog Number
2-1/2 Quarts	990-B041
5 Quarts	990-B042

## H.B. Fuller No. 8440 – Inert Blanketing Gas

H.B. Fuller 8440 is a pressurized can of an inert gas used to protect liquids that are sensitive to moisture. When the container is opened, moisture-laden air replaces the nitrogen blanket added at the factory. Use 8440 to effectively create a heavier-than-air blanket when closing containers after use to virtually eliminate the chance for moisture contamination.

Size	Catalog Number
12 oz. Aerosol Can	980-8440

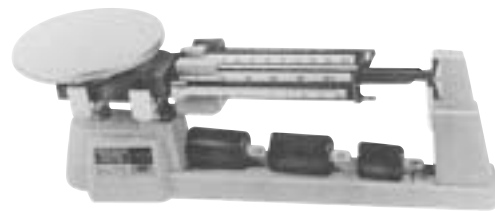

To order please specify catalog number and quantity desired.

## Ohaus Triple Beam Balance

Ohaus Precision Balances are especially suited for plastics mixing applications where accurate weights are required. They are designed for ease of operation and fast weight measurements.

The No. 760 Ohaus Triple Beam Balance illustrated provides all the convenience of a top loader yet retains the ruggedness needed for a wide range of work. Tare beam and poise make repetitive weight and chemical formulations easy and eliminate container weight from calculations. Attachment weights store in base. Majestic damping, tiered beam visibility, and zero adjust combine to give high-speed performance and to reduce errors.

Balances and sets of weights are available in other calibrations on request.

Description	Catalog Number
No. 760 Metric Balance with Weights	992-03760W
No. 707 Set of Metric Weights Only	992-03707

To order specify catalog number and quantity desired.

## Accessory Equipment & Products

As a major supplier of prototyping and model-making plastics, Kindt-Collins offers a wide range of additional products and equipment to aid in the mixing and use of these engineering plastics, such as Vacuum Degassing Systems. For more information on these allied products or to order, call toll free 1-800-321-3170.
