

Master™ Quick-Bild II, Epoxy Putties

Master™ Quick-Bild II

The best plastic filler for wood, plastic, and metal...with the color in the hardener

Features

- Can be used for fast, economical prototype work
- Easily sanded or machined
- Creamy consistency, can be applied smoothly
- Colors can be accurately blended

Quick-Bild II with Cream Hardener

| Size | Color | Catalog Number |
|---------------------------------------|----------|----------------|
| 1 Quart Resin & 1 Ounce Hardener | Black | 961-Q2QGS |
| | Mahogany | 961-Q2QMS |
| | Pine | 961-Q2QPS |
| | White | 961-Q2QWS |
| 1 Gallon Resin & 4 Ounces Hardener | Black | 961-Q2GGS |
| | Mahogany | 961-Q2GMS |
| | Pine | 961-Q2GPS |
| | White | 961-Q2GWS |

Through our continuous research and formulating experience we have developed MASTER Quick-Bild II. This is a two-part, quick-setting polyester filler for metal, plastic and wood. It hardens in 15 minutes or less to a smooth workable surface that can be filed, sanded or ground.

A special feature of Quick-Bild II is the multiple color range of the hardeners. Hardeners are available in pine, mahogany, gray and white. Changing colors requires only a change of hardener rather than a new container of resin. This reduces stock inventory and saves money.

Quick-Bild II Hardener Only

| Size | Color | Catalog Number |

Epoxy Putties

Dynasteel and Dynaluminum are hand kneadable, fast curing epoxy putties that mix in one minute to provide fast repairs to many surfaces including metals, wood, glass, concrete, ceramics and numerous plastics. They can be drilled, sawed, sanded, filed, tapped, machined or painted. They come in handy roll form with the curing

agent encapsulated in a contrasting color base material. The putty like consistency eliminates drips and runs providing a "no-mess" application with no tools required for use. Resistant to hydrocarbons, ketones, alcohols, esters, halocarbons, aqueous salt solutions and dilute acid and bases. Available in 3/4" diameter 7" tubes.

Master™ Pat-Bild, Master™ Bild-Up

Master™ Pat-Bild

A pattern and model build-up and repair filler paste

MASTER Pat-Bild is a quality, quick-setting, all-purpose, two-component polyester paste. It is designed especially for making inexpensive pattern repairs.

MASTER Pat-Bild is available in mahogany, pine or gray colors.

Features

- Creamy consistency means easier mixing and application
- Low shrink factor for closer tolerances
- Exceptional adhesion to metal, fiberglass, wood and other porous materials
- Semi-rigid, better plasticity, withstands shocks and vibrations
- Excellent machining qualities. Can be sanded, scraped, filed, drilled, tapped, machined to a feather edge, painted and finished
- Fills voids, cracks, crevices; makes pattern and corebox repairs; provides Kellering and prototype tooling
- Non-toxic

Master™ Bild-Up Metal & Solvent

Metal Alloy Cold Solder Repairs Metal Defects

This is a synthetic metal alloy in pliable form for repairing defects in most metal...particularly adaptable for metal patterns and coreboxes. It will adhere to any clean, dry surface.

MASTER Bild-Up Metal is highly recommended for repairing metal defects

where heat or flame cannot be applied. All that is necessary is to apply and let dry...it will not crack, check, or peel. When dry, it can be ground or sanded, and then be ready to take any paint finish.

Master™ Bild-Up Metal

| Size | Catalog Number |
|----------|----------------|
| 1/4 Pint | 995-BQP |
| 1 Pint | 995-B1P |
| 1 Quart | 995-B1Q |

Master™ Bild-Up Metal Solvent

| Size | Catalog Number |
|----------|----------------|
| 1 Pint | 921-BMS01P |
| 1 Quart | 921-BMS01Q |
| 1 Gallon | 921-BMS01G |
| 5 Gallon | 921-BMS05G |

Master™ Quick-Carve™, Filler Pastes

Master™ Quick-Carve

A quick-setting, carvable plastic filler and build-up material

MASTER Quick-Carve is a carvable, quick-setting (wood type) build-up material for patterns and models. It can also be used for making repairs, fillets and engineering changes.

MASTER Quick-Carve resin is available in two-colors — mahogany or pine. The hardener is white.

Features

- Easy to mix and apply
- Easy to carve, sand or scrape
- Will not dull tools
- Does not chip when feather edged
- Has low shrink factor
- Bonds to itself...does not sag on vertical surfaces

Quick-Carve with Cream Hardener

| Size | Color | Catalog Number |
|------------------------------------|------------------|------------------------|
| 1 Quart Resin & 1 Ounce Hardener | Mahogany Pine | 961-QCQMS 961-QCQPS |
| 1 Gallon Resin & 4 Ounces Hardener | Mahogany Pine | 961-QCGMS 961-QCGPS |

Quick-Carve Hardener Only

| Size | Color | Catalog Number |

| 1 Ounce | White | 961-CH1W |
| 4 Ounces | White | 961-CH4W |

To order please specify catalog number and quantity desired.

Master™ Bild 900 Filler

A less expensive quick setting pattern and model build-up and filler paste. MASTER Bild 900 has a gel time of five to six minutes and can be sanded, scraped, filed, drilled, tapped or machined to a feather edge in about 15 minutes.

| Size | Catalog Number |
|------------------------------------|----------------|
| 1 Quart Resin & 1 Ounce Hardener | 961MBQ |
| 1 Gallon Resin & 4 Ounces Hardener | 961MBG |

To order please specify catalog number and quantity desired.

High-Temp Polyester Set-Fast Industrial Filler Pastes

No. 17 Filler Paste

No. 17 Hi-Heat Resistant Gray Filler is a unique two-part system with the ability to withstand extremely high operating temperatures (230°C/446°F) and still maintain its bonding and filling strength. It has excellent handling and finishing characteristics and is particularly useful for applications where finished parts require oven cure. Available in white or gray in one-quart and one-gallon cans with tube of hardener.

| Size | Color | Catalog Number |
|-----------------------------|-------|----------------|
| One Quart w/1 Oz. Hardener | Gray | 964-17QUGG |
| One Gallon w/4 Oz. Hardener | Gray | 964-17GU |
| One Quart w/1 Oz. Hardener | White | 964-17QUW |
| One Gallon w/4 Oz. Hardener | White | 964-17GUW |

You can order from the complete line of Adtech high performance fillers and epoxy systems for marine, automotive and aircraft industries and other applications.

Pattern Shop/Foundry Supplies

Our Pattern Shop and Foundry supplies represent the finest products available to assist craftsmen in the production of quality patterns. All products are made of quality materials and are tested to assure reliable performance in your patternmaking facility. Products not of our own manufacture are selected from the best manufacturers in America and are thoroughly tested in our own facility that has ISO-9001 registration. If your needs are not met by any of these products, call our Customer Service Department toll free at 1-800-321-3170 and we will try to locate it for you.
